

Cleaning Products Risk Assessment

Walsall Childminding Hub

St Matthew's Centre, Walsall, WS1 3DG

Hazard	Risk	Control Measures	Risk Level
Cleaning Products	Skin irritation, eye irritation or accidental ingestion	Only Dettol Surface Spray and washing-up liquid are used. Products are used in accordance with the manufacturer's instructions.	Low
Storage of Cleaning Products	Children accessing hazardous substances	All cleaning products are stored securely in the kitchen. Children are not permitted in the kitchen and do not have access to cleaning products.	Low
Use of Cleaning Products	Incorrect use causing injury	Only staff members use cleaning products. Products are never left unattended while in use.	Low
Personal Protective Equipment (PPE)	Skin contact with cleaning chemicals	Staff wear disposable gloves when using cleaning products and when dealing with bodily fluids.	Low
Chemical Spill	Slips, chemical exposure or inhalation	Children are kept away from the affected area. Staff clean the spill immediately and ventilate the area if required.	Low
Cross Contamination	Spread of bacteria and viruses	Tables, equipment and frequently touched surfaces are cleaned using Dettol Surface Spray. Cleaning cloths are changed regularly.	Low
Kitchen Area	Unauthorised access to chemicals and equipment	Children are supervised at all times and are not permitted in the kitchen where cleaning products are stored.	Low

Overall Risk Rating: LOW
